Remote Learning Expectations - 7th & 8th Grade

2020-2021 Second Semester

Be online between 8:00 AM - 2:00 PM for a minimum of 3 to 4 hours every day. You need to use your online time to complete all required assignments, activities, and/or projects. Additional time may be needed to complete all your assignments and projects.

Complete the [Daily Check-in](#) by 10:00 AM every day. The form is available on the [HJHS Remote Learning Information](#) page. Bookmark the page to make it easier to find each morning.

NOTE: If you are not able to be online due to a doctor's appointment, illness, or other excused absence, provide this information in your daily check-in form.

Check your school email at least twice a day - every morning and every afternoon. Use email to communicate with your teachers as needed for homework help, questions, etc.

NOTE: E-mails should be sent prior to 9:00 PM. E-mails sent after 9:00 PM will be answered the following school day.

Check ALMA every day and email the teachers if you have questions about grades. Assignments not completed on time will be marked as zero grades. Remember, you must complete all work and letter grades will be assigned. It is NOT pass/fail!

Check your teachers' websites or classes on Google Classroom for all assignments every day. It is your responsibility to find & complete your assignments for ALL classes, which includes watching teacher videos, accessing textbooks, links to learning resources, and completing online activities.

NOTE: Assignments should be turned in prior to 2:00 PM unless extended time has been arranged with the teacher.

Extra help for you and your teachers will be available through ZOOM meetings only. Students will be able to contact their teachers to schedule a meeting during their planning time on Tuesday 2:30 PM - 3:30 PM. The daily group Zoom meetings will be held during the second semester.

Follow school rules & procedures, which includes showing respect for teachers and students, asking for help when needed, using technology appropriately, and doing your own work (no cheating).

Contact [Mrs. Tomm](#) if you have technical difficulties or issues accessing any of the learning resources.
